

**"English enrichment with [100%](#) native English-speaking teachers "□□**

The levels of the IEEP 2018 English Program aim to help students develop English language skills to a high enough degree so that they can succeed in academic English courses and achieve the desired score in the IELTS exam. Each level is built on the foundation of previous courses along with an additional level of grammar, vocabulary, pronunciation, listening, speaking, reading, and writing skills. Students will be given an English placement test to be placed in the appropriate level.

During the course, students will be continuously assessed through homework assignments, quizzes, and classroom tests. They will receive feedback and assessments related to specific skills from the lecturers about their strengths, weaknesses, and progress. Students at all levels are required to take at least one practice IELTS test during the course to become familiar with the IELTS format and to help assess the learning process. At higher levels, the number of practice IELTS exams is increased.
